

Pupil Premium Strategy Statement 2018– 19

The Government introduced the Pupil Premium Grant in 2011 to address the current underlying inequalities between children eligible for free school meals (FSM) and their wealthier peers, by ensuring funding to tackle disadvantage reaches the pupils who need it most. Schools have the freedom to decide how the Pupil Premium is spent in order to diminish the difference of attainment, opportunities and life chances for these pupils on an individual basis.

At Bishop Road Primary School we support all our pupils. We do this by providing high quality classroom teaching supplemented by interventions to support vulnerable learners as and when required. The School Leadership Team and Governing Body monitor the impact of all spending and interventions, including pupil premium funding. Pupils eligible for free school meals are currently a small number at Bishop Road; the grant received by the government is spent to support these pupils in a variety of ways across the school. In making appropriate provision for this we also acknowledge that not all pupils in receipt of free school meals are socially disadvantaged. We also recognise that not all pupils who are socially disadvantaged are registered or qualify for free school meals.

The overall impact of pupil premium investment in the school has been significant in supporting high achievement and progress for pupils in this group. In recognition of this, the school has been shortlisted in the South West region for the Pupil Premium Awards on three occasions in recent years.

3. Barriers to future attainment (for pupils eligible for PP, including high ability)

In-school barriers *(issues to be addressed in school, such as poor oral language skills)*

A.	43% of pupil premium children are EAL learners. The lower level of confidence with English that many of their parents have affects participation in home activities such as daily reading with their child.
B.	Many pupil premium children live at a greater distance from the school; this can affect their punctuality and engagement in extracurricular activities where transport is not provided by the school.
C.	5% of pupil premium are SEND learners.

External barriers *(issues which also require action outside school, such as low attendance rates)*

D.	Pupil attendance is slightly below the school's average for 2018/19 at 94.7%* compared to the school's overall attendance rate of 97.1% *This percentage excludes one PP pupil who is having a phased introduction to lesson time.
E.	Some children eligible for pupil premium do not experience a range of enrichment experiences outside of school because of additional costs attached.

4. Desired outcomes

	<i>Desired outcomes and how they will be measured</i>	<i>Success criteria</i>
A.	PP children make accelerated progress and close the attainment gap on their peers.	Each key stage will show accelerated progress amongst PP children towards cohort average.
B.	There is greatest progress in writing attainment.	Writing shows the highest attainment increase from entry to year end.
C.	Children will overcome specific individual learning barriers.	Teachers can identify personalised strategies developed with their PP children in class and during feedback sessions leading to increased progress and attainment.
D.	PP children reach or surpass age related expectations on average across the curriculum.	PP children reach or surpass age related expectations on average across the curriculum.
E.	PP children will engage fully in wider school life.	All PP children will be part of a lunchtime or after school club. All PP children in Y4-Y6 will have an opportunity to represent the school. All PP children will have enhanced opportunities to benefit from the school enrichment offer e.g. interview crew, small group sessions and workshops.
F.	Strengthened home-school link with families of PP children.	Teachers will adopt a proactive approach to engaging PP families including personal invitations to school events such as performances, parents' evenings and PTFA events.

6. Previous Academic Year

Impact Summary

Autumn 2018

In 2018/19 there are 40 children who meet the criteria for Pupil Premium. We continue to support these children through small group work with specialist teachers in Early Years, Key stage 1 and Key stage 2. Last year, disadvantaged pupils' starting and finishing points for attainment remained lower than their peers. However, at the end of the previous academic year, disadvantaged children as a group across the school made accelerated progress from their year entry starting points compared to the whole school cohort.

Average progress for disadvantaged pupils was positive – in all subjects children exceeded the National Average 0.

Key Stage 2 Outcomes 2018

3 Year Trend

The scaled scores for reading and maths for the end of KS2 have continued to improve each year.

2017 Nat ave for non- disadvantaged pupils	0.33	0.18	0.29			
2016 Progress	0.14	-7.18	-0.94			

There has been a marked improvement in progress in all core curriculum subjects, PP progress now exceeding the national averaged for non-disadvantaged pupils at the end of KS2. There has been an overall improvement in the attainment of PP children, with the proportion of children at the expected level now very close to the national average for non-disadvantaged pupils.

Reading	1.90	1.97
Maths	1.66	1.45
Grammar	1.47	1.81

7. Additional detail

Within our pupil premium cohort, we now have five families with more than one sibling recorded as eligible for funding; this is an increase from three last academic year.

Were every sibling in a family to qualify for pupil premium funding, the number of pupils receiving funding would increase by 12%.

We understand that home circumstances change and that therefore families may no longer qualify for funding; however, we continue to work to ensure that those eligible for funding are provided with information and support to complete the application.
