Year 6 Bishopston Biodiversity Survey

Dear Parents and Carers,

We have arranged to take the children on an exciting biodiversity survey around Bishopston on **Monday 18th July**. The children will be learning about mapping, navigation and geographical information systems whilst contributing to a global database of biodiversity data using the iPad app iNaturalist.

We will be leaving school around 10:30am and will be back around 11:30am. Parental support will be required for this trip, so if you are available on Monday 18th July please indicate below. We are always very grateful for offers of support.

We are sure the children will gain a lot from this geographical survey.

Yours sincerely,

Mr Holland
Geography Lead

Year 6 Bishopston Biodiversity Survey

I am available to help on the day of the trip. (We will contact you by Monday 11th July if we need your help).
