

Identifying Adverbs

Adverbs are words that describe how, when, or where the verb in the sentence takes place. Read the paragraph carefully. In the table below, write a list of the adverbs that you find. The first two have been done for you.

Yesterday, the sun was shining brightly in the sky as the children played happily in the park. They were enjoying their afternoon, laughing loudly and running quickly from the swings to the slide. Soon, they decided to explore the nearby woods, walking carefully over the rocks and roots. After a while, they found a small stream and skipped excitedly across the stones. Suddenly, a bird flew high into the air, and they stopped to watch quietly. Later, feeling hungry, they sat down together to eat their snacks. Finally, they headed home slowly, tired but still chatting cheerfully about their adventure.

Adverbs
Yesterday Brightly
